There will be a "Salamagundi Party" at the residence of Mr. J. L. Cauthen on Friday evening, March 28th. The proceeds will be used for the purchase of a library for the Bethel school. A full attendance is desired.

Thorough cultivation is essential to a good garden. J. W. Seigler has the necessary tools—rakes, four-pronged hoes, spading forks, agricultural hoes, etc.

### Missionary Meeting.

A missionary meeting will be held in Zion Presbyterian church on next Sabbath, 23rd of March. Dr. George C. Worth, a medical missionary to China, now at home on furlough, will be present and is expected to address the congregation three times—at 11 a. m., in the afternoon at 4 o'clock, and at night at 8 o'clock.

Special low prices on a big quantity of poultry netting, the cheapest fence for the yard and garden.—J. W. Seigler.

### Lyceum Entertainment.

Fred Emerson Brooks, the California poet, will be the next attraction in the lyceum course, and the time for the entertainment has been changed to the 25th instead of the 26th as first announced. This will make the fifth entertainment in this course, which will close in April with an entertainment by the Swiss Bell Ringers.

Two families can be supplied regularly with fine fresh butter by leaving their order at The News and Herald office.

### Broom Corn Free.

Mr. Geo. H. McMaster, who is ever interested in the industrial development of Fairfield county, has a limited supply of broom corn seed which he offers to give to some few farmers who will plant them and give the crop a full trial. Mr. McMaster looks upon the crop as one of great possibilities to this section, and this is the reason for his very liberal offer.

### Spring Millinery Opening.

Mrs. A. L. McCarley's spring millinery is daily arriving and all next week she will have her spring opening. She invites all the ladies of Winnsboro and the county to call and examine her stock, which will be found up-to-date in every particular. Remember, this opening begins Monday morning, March 24, and continues throughout the whole of next week.—adv.

### Winnsboro the Place.

One of Winnsboro's fair daughters was spending a while not long since in one of the larger towns of the State, and in the course of a conversation was giving some of the advantages that Winnsboro possessed as a place to live at. Perfectly innocent she reached a climax when she announced that the price of turkeys here was only two cents a pound. Had this only been the case her argument would not have had to be carried farther.

### The Knife in Play.

Saturday night there was a cutting scrape at the Fairfield cotton mills, in which John Champion was cut several times by J. E. Hilton. Champion's wounds, though ugly, are not thought to be serious and he is reported as getting along well. Hilton's whereabouts are not known.

The same night there was a cutting scrape up town between two colored women from the country, who managed to get away from town before they got into the clutches of the law.

If you wish a setting of eggs from my pen of Silver-Laced Wyandottes—and you would if you were to see them—you had better speak at once, as orders are being booked very rapidly, and soon I will have to call off. A setting of 13 for \$1.00. J. Frank Fooshe, Winnsboro, S. C.

### Shipping Eggs.

Though we have been in Winnsboro for more than three years, Saturday was the first time we ever saw eggs being prepared for shipping to market. Though the shipment eluded to was a small one, it was being made with a view to developing a market for future shipments. While such a business, should it prove successful, would have a tendency to increase the price of eggs on the local market, yet as a matter of fact it would mean the development of an industry of great possibilities now almost neglected.

### A Grave Photographed.

All who attended the funeral of the late Dr. Chalmers were greatly impressed with the unusual beauty of the floral decorations. At the suggestion of friends the grave was photographed by Miss Annie Davis. Three different negatives in different positions were taken, and the developed photographs show how well this part of the work was done. These excellent photographs are on exhibition at Lauderdale & Bryson's, and friends wishing one of these little mementoes can get the same for 15 cents.

### Primary Election.

A primary election is hereby ordered for Monday, March 24th, to nominate an intendant, four wardens, and one school trustee for the coming municipal election. The polls will be opened in the town hall at 9 a. m. and will close at 4 p. m. Capt. J. A. Hinnant, S. C. McDowell, and J. A. Stewart are appointed managers for the same. All members of the Municipal Democratic Club will be entitled to vote at this election. All candidates to be voted upon will file their pledges with the executive committee before Friday, March 21st. No vote will be counted unless the ticket contains the name of one intendant, four wardens, and one school trustee. J. E. McDonald, Chairman Ex. Com. J. Frank Fooshe, Secretary.

You will never wish to take another dose of pills if you once try Chamberlain's Stomach and Liver Tablets. They are easier to take and more pleasant in effect. They cleanse the stomach and regulate the liver and bowels. For sale by McMaster Co.

### West Point Vacancy.

As the result of Fairfield being changed from the fourth to the fifth congressional district, the boys of this county will soon have again an opportunity to stand for a West Point scholarship, as the present appointee will graduate within the next year. While from a political standpoint it wouldn't be a good policy for this county just coming to the district to put forth a candidate, yet from the standpoint of merit there is no restriction to a Fairfield boy entering the contest and even winning—and here goes hoping that the honor will be won by a Fairfield boy. Full information will be given in time. In the meantime let the boys who have such military aspirations get a move on them.

### Mt. Zion's New Pastor.

Rev. A. McA. Pittman, of Greenwood, has accepted a call from Mt. Zion church and will preach once a month, beginning with the fourth Sabbath in March. Mr. Pittman has served the church before, and we know whereof we speak when we say he is a capital preacher, active pastor, warm friend and brother. C. S. F. Asa, S. C., March 17, 1902.

### Surgeon's Knife Not Needed.

Surgery is no longer necessary to cure piles. DeWitt's Witch Hazel Salve cures such cases at once, removing the necessity of dangerous, painful and expensive operations. For scalds, cuts, burns, wounds, bruises, sores and skin diseases it is unequalled. Beware of counterfeits. McMaster Co.

### Municipal Club Meets.

The Winnsboro Democratic Municipal Club held its annual meeting Friday night. In the absence of the president, Mr. G. H. McMaster, Capt. W. G. Jordan, one of the vice-presidents presided. The election of officers was then gone into and resulted as follows: Vice-presidents, W. C. Beaty and W. G. Jordan; secretary, J. E. Coan; executive committee, J. E. McDonald, J. Frank Fooshe, B. J. Quattlebaum, J. A. Brice and L. E. Owens. There was no election of president as the club at its meeting a year ago honored Mr. G. H. McMaster by electing him president for life. The election of new members was next taken up, and a number of new names added. There being no further business, the meeting was adjourned.

### Who is Archie McCoy?

Friday a strange white boy made his appearance in town. According to the vision of Policeman Gilbert his appearance bore a striking resemblance to the photograph of a boy in one of those little pamphlets sent out to chiefs of police with its history of crime and runaways and with its offers of rewards, which latter feature policemen take in to such an extent that every stranger whose business is not readily made known is sized up as fitting some one of the photographs. So Winnsboro's chief proceeded to take into custody this wanderer, who gave every evidence that his lungs were good and strong. Fortunately for the boy two members of the bar were passing by at the time and stopped long enough to throw out the hint that it was beyond the policeman's province to hold one on such an assumption. The boy was turned loose and soon found a friend in Mrs. H. B. Refo, who agreed to care for him till he was provided for in some other way, and so instead of being shut up in a guard-house Archie D. McCoy, for that is the name by which he calls himself, is boarding at a hotel. Archie says he is about 12 years old, and his appearance indicates that this is quite a true statement. He gives Rockingham, N. C., as his home, and he says that he left home on account of the cruel treatment of a stepfather. While the little fellow is apparently of a bright mind, it is pretty evident that a good portion of his mental study has been the tricks and sayings of the boys of the street. An effort is being made to find out more about him so that he may be returned to where he belongs, though he seems perfectly at home here in Winnsboro.

### Great is Winnsboro.

In the write-up of the Charleston exposition by The State's special correspondent, the following interesting paragraph is found:

"In the minerals and forestry building is an exhibit by the Winnsboro Granite company. This exhibit deserves the careful attention of every visitor, especially for South Carolina. It is not many years since that it

was thought impossible for a good piece of granite to be found in South Carolina that could be utilized for any purpose except building the State house in Columbia. An inspection of the exhibit above referred to will show what a little industry and push has done, and would clearly indicate the possibilities for a further development for granite resources within the State.

The Winnsboro Granite company have secured the contract for furnishing the granite for the great office building of the Title and Trust company, now being erected corner Board and Sanson streets, Philadelphia. This will be a twenty-three story building, with over seven hundred rooms in it. It certainly speaks up well for the Winnsboro Granite company, of which Capt. James F. Redding, of Charleston, is the president, to have secured such a contract in an eastern city."

—When Mr. D. B. Lumpkin, of Rocky Mount, S. C., returned from his neighbor's house with some fruit trees and rode up in his front yard, he threw his trees down. His horse became frightened and threw him. His foot hung in the stirrup and he was dragged some distance over rocks and roots. His left foot was hung in the stirrup and he held to the stirrup with his right hand. All that saved his life was his shoe pulling in two. It was a strong heavy brogan shoe. He says he expects to keep it as long as he lives to warn him of danger. He is at home nursing skins and bruises. If he had been a heavy built man he would have been killed before he was dragged ten steps.—Chester Lantern.

### SCHOOL BOOKS.

As my office is now open only on Saturdays, for the convenience of those desiring school books I have arranged with Mr. S. B. Stevenson to handle the same at the adopted prices.

W. L. ROXBOROUGH,
